

SIVAKANTHAN JANOOS

ICT Undergraduate | Software Developer | Web Developer | UI/UX Enthusiast

spicy.janoos@gmail.com | linkedin.com/in/sivakanthan-janoos | github.com/Sivakanthan-Janoos

PROFESSIONAL PROFILE

Motivated ICT undergraduate with a strong interest in software development, web technologies, UI/UX design, databases, and practical problem solving. Experienced through academic and personal projects involving Java, C#, web development, SQL, and Figma. Actively building technical skills through projects, coding events, cybersecurity competitions, and technology communities.

EDUCATION

University of Vavuniya — ICT / Information and Communication Technology Undergraduate

Relevant areas: Programming, Database Management, Web Development, Data Structures & Algorithms, Computer Graphics, Software Engineering, System Analysis & Design, UI/UX, and Networking.

[Add your study period / expected graduation year]

TECHNICAL SKILLS

Programming: Java, Python, C#, JavaScript

Web Development: HTML, CSS, JavaScript, jQuery, Responsive Web Design

Database: MySQL, SQL, Database Design, CRUD Operations

UI/UX: Figma, UI Design, UX Design, Prototyping

Concepts: Object-Oriented Programming, Data Structures & Algorithms, Software Engineering, Computer Graphics

Tools: Git, GitHub, Visual Studio, VS Code, Figma

SELECTED PROJECTS

Hospital Management System | C# | .NET | SQL/Database | LINQ

Developed a hospital management application focused on patient registration, doctor management, appointment handling, and database operations.

Tic Tac Toe in Java | Java | OOP | GUI

Built a Java-based Tic Tac Toe application demonstrating object-oriented programming and interactive application development.

Photo Gallery Website | HTML | CSS | JavaScript | jQuery

Created a responsive multi-page photo gallery website with modern front-end design and responsive layouts.

VANNI-ICE UI/UX Design | Figma | UI/UX | Prototyping

Designed a user-focused digital interface and interactive prototype using Figma and UI/UX design principles.

EVENTS & COMPETITIONS

UOJ Coders v5.0 | 18-19 July 2026 | University of Jaffna

Participated in the coding event organized by the Computer Society and Department of Computer Science, University of Jaffna.

06 Hour Cyber Battle — Hydra CTF 2026 | 1 May 2026 | Team: RULE BREAKERZ

Participated in the six-hour cyber battle as a member of the RULE BREAKERZ team, with involvement from the Leo Club of University of Vavuniya and Mozilla Campus Club UOV.

TECHNICAL & COMMUNITY ACTIVITIES

- Participated in university-level coding and cybersecurity events.
- Engaged in technology-focused student and community activities.
- Continuously developing software, web development, UI/UX, and database skills through practical projects.

CORE STRENGTHS

Problem Solving • Team Collaboration • Continuous Learning • Communication • Adaptability • Technical Curiosity
